THINK BEYOND THE TABLE

Add Rose Medallion to the dessert buffet or bar cart for an added touch of design savvy. Bring in a fun candlestick with a pink taper and other items like these green wineglasses from Estelle Colored Glass, that highlight the hues of the china pattern. This heirloom silver water pitcher can be updated and used in a new way. We tied the handle with a monogrammed "Twillie" from The Preppy Stitch and filled it with flowers.

COLOR WHEEL

Bring out the fabulous colors in Rose Medallion with vibrant flowers that draw your attention to the china. Place flowers in unexpected places on the table to further delight your guests. Miniature arrangements down the table create a visual runner for the eye without detracting from the main centerpiece.
